The Sterling Silver beads mark each of the 12 Houses, helping interpret your chart.

The colored beads count the 360° circle. Choose either handpressed glass or semi-precious stone: you can pick your birthstone, your favorite color, or match your wardrobe!

The Sun is always positioned over your heart.

Start "reading" the necklace at the Earth bead (Azurite-Malachite) marking the Ascendant and 1st house. Then, move counter-clockwise.

The semi-precious stones look like the real planets, both in color and proportion. For example, Jupiter (Botswana Agate) is the giant gaseous swirly planet, and Saturn (Tiger's Eye) has its own rings.

Gold beads mark the Zodiac sign cusps.

Wear Your Universe!

When you wear a Wandering Star Astrology Chart Necklace, you are literally in the middle of the planets and constellations, just as they were around you at the moment you were born. You become grounded and centered in who you came into the world to be.

Tell us your birth date, time, and place, and we'll custom-make your jewelry with the color, length, sun, and clasp of your choice.

Each Planet is represented by a semi-precious gemstone that actually looks like the real planet, both in color and size. The Zodiac signs are separated by a Gold bead at each cusp. The Houses are marked with Silver beads, with ribbed Silver beads at the Ascendant, Midheaven, Descendant, and Nadir. Each bead equals an exact number of degrees, adding up to 360°. In Conjunctions, the beads are side by side.

The necklaces are so accurate that you can do astrology readings right from them!

Use your Horoscope Jewelry to focus your intentions. Every necklace and bracelet comes with an astrology chart and 15-page reading on parchment paper in a plastic binder. Read the report to learn what each bead does in your personality. Then find the planets

associated with your positive traits and work with the beads to enhance your strengths.

If you're trying to break a bad habit, or are looking for guidance, play with the planet associated with that bad behavior. Think about what you can do differently right at this moment!

The Secret to Manifesting Your Dreams

Destiny bracelets and necklaces are talismans that embody planetary alignments to optimize energy in specific areas of your life.

You are born with particular personality traits, but you are NOT “stuck” with anything. Throughout your life, wonderful things have happened, and perhaps some not-so-wonderful things. And each time, you made a decision about who you are, or how the world works.

But each of those elements of your identity, what you consider “I”, was a choice you made at that moment. What if you could change the way you react to upsets, or be proactive in pursuing your dreams? You can!

Focus your intention to achieve your goals. Use your Destiny Jewelry talisman as a meditation tool to manifest what you want and deserve out of life.

Collaborating with Mary Jean Kidd, former president of the Oregon Astrological Association, we created our Destiny Jewelry designs for issues most people are working to transform: Love, Empowerment, Health, Ideas into Action, Money and Stress Relief.

Every necklace and bracelet is an actual astrology chart that aligns around these specific areas in powerful, profound ways.

You can actually USE the jewelry! The descriptions of each design are written on full-color postcards in the form of affirmations, planet by planet and house by house.

Work your way around the Destiny talisman bead by bead, like a rosary or mala, spending time with each planet so that you can activate its positive energy in your own life.
